Value Explanations

Suggested List

The value listed in this column reflects the approximate price of the unit when it is brand new. The prices listed are furnished by the manufacturer and are assumed to be correct. The list price does not include freight charges.

Used Wholesale Trade-In

(Low Book) - This column reflects the average wholesale value of a used unit "ready for resale". This may also be considered a trade-in value.

Used Retail

(High Book) - This column reflects the retail value of a used unit "ready for resale".

"BRAND NEW", Non Current:

The Used Retail Value does not represent "brand new" non-current year vehicles. Recent market research shows that "brand new" non-current models can increase the used value of an identical model by 6%-12%.

Self-Contained

This column will inform you as to whether the individual unit is self-contained or not.

Note:

Any R.V. listed as self-contained normally includes the following components as standard equipment: LPG oven & stove, refrigerator, pressurized water system, toilet facilities, and sleeping accommodations.
